GSA Product List (Dated: September 14, 2009)

SIN	Product	Container	Unit	Description
507-99	Razor	2.5 gal	ga	Razor is a non-selective post-emergent herbicide (weed killer) specially formulated for use in most types of applications, including industrial, forestry, turf, vegetation management and ornamental areas. Razor is a water-soluble liquid 4-pound glyphosate (41%) explicitly formulated for specialty applications or broad spectrum control of hard-to-kill weeds. (herbicide, weed killer).
507-99	Razor Pro	2.5 gal	ga	Razor Pro is a broad spectrum post-emergent weed control (weed killer) for industrial sites, forestry, turf, vegetation management and ornamental areas. Razor Pro, a surfactant loaded liquid 4-pound (41%) glyphosate, eliminates the need for additional surfactant, is rainfast within two hours of application. Equal to Round-up Pro. (weed killer, herbicide)
507-99	AquaNeat	2.5 gal	ga	AquaNeat is an effective aquatic herbicide (weed killer) for use on emerged aquatic weeds and brush in aquatic and other non-crop areas. AquaNeat is a five pound (53.8%) glyphosate specially formulated for a wide variety of aquatic applications. Equal to Rodeo. (weed killer, herbicide).
507-99	WeedDestroy (2,4D Amine)	2.5 gal	Ga	A diversified phenoxy herbicide that is labeled for use on range and pasture, aquatic areas, rights-of-way, and lawns. Labeled multiple markets, including aquatic, ROWs, range and pasture, lawn and other non-crop areas. Site specific labeling for uses not covered by worker protection. Safe for desirable grasses. Weedestroy (2,4-D) the broadest weed control at the lowest cost. Active ingredient: 46.8% 2,4-D amine -- 3.8 pounds active ingredient per gallon. Note: an EP A applicator's licence/number is required for the purchase of this product.
507-99	WeedDestroy (2,4D Amine)	30 gal	ga	A diversified phenoxy herbicide that is labeled for use on range and pasture, aquatic areas, rights-of-way, and lawns. Labeled multiple markets, including aquatic, ROWs, range and pasture, lawn and other non-crop areas. Site specific labeling for uses not covered by worker protection. Safe for desirable grasses. Weedestroy (2,4-D) the broadest weed control at the lowest cost. Active ingredient: 46.8% 2,4-D amine -- 3.8 pounds active ingredient per gallon. Note: an EP A applicator's license/number is required for the purchase of this product.
507-99	Razor	30 gal	ga	Razor is a non-selective post-emergent herbicide (weed killer) specially formulated for use in most types of applications, including industrial, forestry, turf, vegetation management and ornamental areas. Razor is a water-soluble liquid 4-pound glyphosate (41%) explicitly formulated for specialty applications or broad spectrum control of hard-to-kill weeds (herbicide, weed killer).
507-99	Razor Pro	30 gal	ga	Razor Pro is a broad spectrum post-emergent weed control (weed killer) for industrial sites, forestry, turf, vegetation management and ornamental areas. Razor Pro, a surfactant loaded liquid 4-pound (41%) glyphosate, eliminates the need for additional surfactant, is rainfast within two hours of application. Equal to Round-up Pro (weed killer, herbicide).
507-99	AquaNeat	30 gal	ga	AquaNeat is an effective aquatic herbicide (weed killer) for use on emerged aquatic weeds and brush in aquatic and other non-crop areas. AquaNeat is a five pound (53.8%) glyphosate specially formulated for a wide variety of aquatic applications. Equal to Rodeo (weed killer, herbicide).
507-99	Reward	1 gal	ga	Non-selective (broadleaf and grass weeds), highly active, contact herbicide (weed killer) for trim and edge in landscape. Aquatic areas: broad-spectrum control of submersed, floating and marginal weeds and some forms of algae. Can be applied in and along the edges and non-flood areas of ponds, lakes, drainage ditches and canals. Active Ingredient: 37.3% Diquat dibromide (herbicide, weed killer).
507-99	Saraha	10 lb	lb	Sahara DG provides complete burndown and total bareground control of 150 species of annual and perennial grasses,

				broadleaf weeds and vines. Sahara DG keeps new weeds from emerging all season long. Ideal for guardrails, medians, shoulders, substations, barriers, delineators and signposts (weed killer, herbicide).
507-99	Sevin XLR	2.5 gal	ga	Sevin XLR carbaryl insecticide sets the standard for broad spectrum control of dozens of pests, including beetles, weevils and worms in tree fruit, nut, vine, citrus, vegetable and other crops. It offers a host of advantages over other insecticides: ease of application, short PHI, no phytotoxicity, and 12-hour re-entry interval. Active ingredient: 44.1% carbaryl.
507-99	Element 3A (Garlon)	2.5 gal	ga	For the control of woody plants, broadleaf weeds in forests and industrial non-crop areas, including manufacturing and storage sites, rights-of-way such as electrical power lines, communication lines, pipelines, roadsides, railroads, fence rows, non-irrigation ditch banks, and around farm buildings; including application to grazed areas, and establishment and maintenance of wildlife openings on these sites, and in Christmas tree plantations. Use within production forests and industrial non-cropsites may include applications to control target vegetation in and around standing water sites, such as marshes, wetlands, and the banks of ponds and lakes. Active ingredient: 44.4 triclopyr -- 3 pounds per gallon of active ingredient (weed killer, herbicide, formerly known as Garlon 3A).
507-99	Element 4 (Garlon)	2.5 gal	ga	For the control of woody plants, broadleaf weeds in forests and industrial non-crop areas, including manufacturing and storage sites, rights-of-way such as electrical power lines, communication lines, pipelines, roadsides, railroads, fence rows, non-irrigation ditch banks, and around farm buildings; including application to grazed areas, and establishment and maintenance of wildlife openings on these sites, and in Christmas tree plantations. Use within production forests and industrial non-cropsites may include applications to control target vegetation in and around standing water sites, such as marshes, wetlands, and the banks of ponds and lakes. Active ingredient: 61.6% triclopyr -- 4 pounds per gallon of active ingredient (weed killer, herbicide, formerly known as Garlon 4).
507-99	Malathion	1 gal	ga	Malathion 5 (56.8%) provides dependable broad-spectrum insect control in a variety of field, forage and grain crops, to include citrus, fruits and vegetables. Controls a wide variety of insects to include: weevils in cotton; armyworms in forage crops; cereal leaf beetle, English grain aphids, greenbugs and grasshoppers in grain crops; beetles, leafhoppers, aphids, and spider mites in vegetables and fruits. Contains 5 pounds of malathion per gallon (insecticide, pesticide).
507-99	Velpar 90	4 lb	lb	Velpar DF is a non-selective, pre-emerge, broad spectrum herbicide used to control many broadleaf and grassy weeds as well as brush and trees on noncrop and forestry sites. Active ingredient: 75% hexazinone VELPAR DF herbicide is a water-dispersible granule that is mixed in water and applied as a spray for weed control in certain crops, Christmas trees, forestry site preparation and release areas, and industrial areas. It may also be applied as a basal soil treatment for brush control in reforestation areas, rangeland, pastures and noncrop areas.
507-99	Orthene	1 lb	lb	Orthene- Turf, Tree & Ornamental for control of larvae and adult insects in non-crop areas, nurseries, pastures, rangeland, trees and shrubs, Christmas trees, outdoor perimeter areas, floral crops, ground covers, foliage plants, and for mound treatment of fired ants. Active ingredient: 75% Aceohate (insecticide).
507-99	Karmex DF (Diuron)	5 lb	lb	KARMEX DF Herbicide is a dispersible granule, mixed with water and applied as a spray to the surface of the ground, or irrigation and drainage ditches, for control of weeds and/or algae. Effects are slow to appear and will not become apparent until the chemical has been absorbed into the plant and trans-located into the leaves. Active ingredient: 80%

				diuron -- 3.8 pounds active ingredient per gallon.
507-99	Polaris	2.5 gal	ga	Polaris is a liquid post-emergent herbicide that contains Imazapyr for effective management of grasses and broadleaf weeds plus many brush and vines species in a variety of vegetative management settings. Application of Polaris may only be made for the control of undesirable emergent and floating aquatic vegetation in estuarine marine surface water. Active ingredient: 28.7% isopropylamine salt of imazapyr.
507-99	Suspend SC	1 pint	pt	For Residential, Industrial and Institutional Control of Major Nuisance pests. Controls numerous pests in and around households and other structures. For insect control on commercial and residential turf and landscape ornamental plants. (Active ingredient: 4.75% deltamethrin)
507-99	Invade 80	1 gal	ga	Invade 80 is a highly concentrated low-foam, non-ionic spreader activator. Invade 80 increases the activity and effectiveness of insecticides, fungicides and herbicides by breaking down the waxy cuticle on the leaf surface and improves adhesion between the pesticide and the plant surface. Active ingredient: 80% Polyoxyethylene Ether, Free Fatty Acids and Isopropanol
507-99	Telstar PL	25 lb	lb	For use to control Ants (including Imported Fire Ants), Mole Crickets and other Insect pests on lawns in landscaped areas and perimeters around residential, institutional, public, commercial and industrial buildings, parks, recreational areas and athletic fields. (Active ingredient: .2% bifenthrin)
507-99	Telstar PL	$\frac{3}{4}$ gallon	$\frac{3}{4}$ ga	To control pests indoors and outdoors on residential, institutional, public, commercial, and industrial buildings, greenhouses, animal confinement facilities/livestock premises, kennels, food handling establishments, and lawns, ornamentals, parks, recreational areas and athletic fields. (Active ingredient: 7.9% bifenthrin, insecticide)
507-99	Nu-Film	1 gal	ga	Nu-Film It is a superior sticking agent designed for use with industrial herbicides. Nu-film forms a sticky, elastic film, which tenaciously holds the herbicide on the plant foliage and greatly reduces rainfall erosion of the spray residue.
507-99	Solo Back-pack Sprayer - 425	1 ea	ea	Each Solo sprayer is equipped with an adjustable, flat spray, hollow cone, and jet stream nozzle to accommodate virtually every spraying need. Padded straps with pull tabs make adjustments quick and easy. Built-in strainers, screens, and filters help keep debris out of nozzles. Viton® seals, gaskets and O-rings provide excellent chemical resistance and durability.
375-364	NS Moisture Barrier	1 case (12 x 12 oz)	case	Penetrates through rust and scale to loosen parts which have been frozen by corrosion. Lubricates parts to ensure free and easy movement. Demoisturizes and creates a waterproof barrier that dries out electrical equipment, inhibits corrosion, non-flammable, and prevents electrical discharge. Meets mil spec C-23411. 22,000 volt deflector strength.
375-363	Power-X Industrial Cleaner/ Degreaser	1 case (12 x 19 oz)	case	This fast acting cleaner / degreaser instantly removes tough, oily, greasy, and stubborn soils. More than an all purpose cleaner, this powerful, non-flammable and non corrosive degreaser quickly penetrates and dissolves dirt, oil, grease and many other tough soils.
375-363	RC-99 Rust Converter	1 case (6 x 1 ga)	case	This formula is a metal surface conditioner and primer that changes rust into a dark protective polymeric coating. It converts existing rust to an inert coating that seals out moisture to prevent future rust and corrosion. Acts as an excellent primer for oil based paints. Coverage is approximately 500 square feet per gallon.
375-364	Penetrex Penetrant	1 case (12 x 15 oz)	case	Non-conducting penetrating oil that lubricates, cleans, loosens nuts and bolts, prevents corrosion, never dries, displaces moisture and penetrates faster and farther.
